This is a beginner level drift dive, Water temp around 70F, max depth 20-25 feet. Boat picks us up at the boat ramp/dock, and drops us at the head waters, we drift down the river looking at the springs bubbling up thru the river bottom, lush sea grass, and looking for fossils and other treasures. The boat does not follow us, so make sure you bring a flag, and don't bring anything to the dock that you don't plan to dive with. Pay the park fee of \$5 and bring \$10 plus a few for a tip in your pocket. Equipment and tanks cannot be rented at this site, so make sure you have everything you need including proper weights for fresh water. Parking is limited, please try to ride share, or decide to meet close by and share a ride.
